

## Modern Communications for Schools

Primary and secondary schools continue to struggle with outdated, unreliable communications systems that do not provide the real time collaboration and engagement capabilities teachers and office staff require today. A cloud-based communications solution from 8x8 quickly and easily replaces that outdated technology and ensures it never becomes obsolete again.

The 8x8 solution enables teachers and office staff to more effectively connect and collaborate. By bringing together 8x8 cloud-based unified communications capabilities and industry leading desk phones—you will empower your staff to create exceptional student outcomes—and it's all easily managed from a single console.

- Lower costs, improve service with guaranteed call quality and reliability for voice and video communications
- Connect anywhere, anytime on any smartphone or tablet with the mobile app
- Enable video and audio conferencing to safely stay connected across teams and with parents
- Provide instant collaboration with the ability to move from chat to a phone call to video communications
- Ensure security and reliability with a platform that meets the highest levels of compliance
- Manage the entire environment from a single Admin Console
- Deliver the services you need today but with the flexibility to easily add new capabilities when you're ready
