Hybrid Meetings Workshop

Come together to get work done

Overview

Flexible work is here to stay: over 80% of managers say they expect more flexible work from home policies, and more than 70% of employees say they expect to take advantage of them.*

The data is clear: decision-makers and employees want the best of both worlds. Flexibility and hybrid work will define the future of meetings.

With Microsoft Teams, you can help people stay connected, collaborate seamlessly, and simplify work in a secure and compliant way – all in one place.

In short, Microsoft Teams is where people come together to get work done with Microsoft Teams Meetings and Microsoft Teams Rooms as the foundation.
