Benefits of Power PDF

A much better user experience: Now there is an alternative to Adobe Acrobat with an intuitive Microsoft Office style user experience that allows users to work in the same experience they are familiar with, along with an impressive array of features specifically designed to make business users more productive.

Turn paper into PDF more productively: Create PDF files directly from your scanner with time saving one-click scanning to PDF. Scan to standard image, searchable or editable PDF formats. Scan and highlight, cross-out or underline – all in a single step.

Speak your notes: With integrated Dragon Notes speech recognition, you can use your voice to quickly capture ideas and comments directly within your PDF files. Simply speak to create text notes in far less time than it takes to type. It's a fast, accurate and convenient way to boost productivity when working with PDFs.

Get word processing capabilities in your PDF: Eliminate the frustration of having to re-create or locate an original document to repurpose and edit its contents. Familiar tools such as text edit, bold, underline and highlight let you edit your PDF file quickly and easily.

Access your documents in the cloud: Now you can save and access your stored documents in the cloud by connecting directly to today's most popular cloud storage sites. This gives you access to your documents anytime, anywhere through the web or by the applications of supported mobile devices.

Encourage compliance with records and document lifecycle policies: Users can save PDFs to the most popular document management systems (DMS) now easier than ever. Simplifying this process saves users time while providing them with faster, easier access to the DMS solutions they are already working with.
